Mission

At M/s Bhagwati Engineers, our mission is to deliver high-precision fabrication and erection solutions for critical industrial infrastructure including pressure vessels, reactors, boilers, and heavy structural systems. We are dedicated to upholding the highest standards of quality, safety, and reliability, backed by skilled craftsmanship & strong industry partnerships. Through every project, we strive to contribute to India's industrial growth with solutions that are efficient, durable, & delivered on time.

Welcome To M/s Bhagwati Engineers

Established in 1996 by Mr. Vinod Kumar Jha, M/s Bhagwati Engineers is a trusted name in industrial fabrication and erection services. With nearly three decades of hands-on experience, we've earned a reputation for technical excellence, uncompromising quality, and on-time delivery across a wide spectrum of industrial projects.

As a proprietorship firm built on integrity and innovation, we specialize in delivering tailor made solutions that meet the highest industry standards. Whether it's structural fabrication, equipment erection, or turnkey project support, our skilled team is committed to delivering results that last.
